Automatic hopper 15 L /5010

The automatic opening of the hopper is made by simple pressure when the poultry appears in front of the feeding dish. Mice, rats and other harmful youngs, by their weight too light, do not succeed in activating the mechanism. Galvanized iron thickness 1mm. Assembly by rivets to avoid the corrosion. Agrees perfectly outside for any poultry (teals, mallards, dwarfish hens etc.).

Without right angles to avoid any risk of cuts.

Silent opening system and will not startle hens as treadle opens and closes.

Dimensions (mm): *Length 234 Width 190 Height 520*
